Mr. Chad Ambassador  
Chad Embassy  
address of this embassy in your country

Dear Mr. Ambassador,

On February 3rd., 2008, my colleague Ibni Oumar Mahamat Saleh, mathematics professor at N'Djamena university, and also spokesman of the opposition coalition CPDC, was abducted from his home in N'Djamena.

No news from him was available until September 3rd., 2008. On this day, the *Commission d'Enquête sur les événements survenus en République du Tchad du 28 janvier au 8 février 2008 et leurs conséquences*, releasing its Conclusions, reckons his death as nearly certain, and proves that the abduction was committed by the Chad National Army.

As numerous mathematicians, I wish to know, officially, the truth on my colleague's fate. So y sent a letter to the Chad President. Pleased find this letter enclosed in this mail.

Sincerely yours,
